A Thesis Submitted to  
The Hong Kong University of Science and Technology  
in Partial Fulfillment of the Requirements for  
the Degree of Doctor of Philosophy  
in the Department of Physics

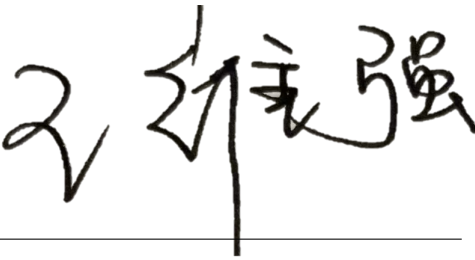

March 2024, Hong Kong

# Authorization

I hereby declare that I am the sole author of the thesis.

I authorize the Hong Kong University of Science and Technology to lend this thesis to other institutions or individuals for the purpose of scholarly research.

I further authorize the Hong Kong University of Science and Technology to reproduce the thesis by photocopying or by other means, in total or in part, at the request of other institutions or individuals for the purpose of scholarly research.

# Chapter 1

## Introduction

1.1 ‘First part’

1.2 ‘Second part’

1.3 ‘Third part’

1.4 Thesis Contributions

# Chapter 2

## Theory and Methods

### 2.1 ‘1st section’

#### 2.1.1 ‘1st Subsection’

#### 2.1.2 ‘2nd Subsection’

# Chapter 3

## First Project

Figure 3.1: **Simulation setup.** Two walls are in  $z$ -direction separated by a distance of  $L_z$ . Easy axis is in the  $y$ -direction. Couette flow is imposed by moving top and bottom wall in  $y$ -direction with speed  $u_0$  and  $-u_0$ , respectively. Poiseuille flow is imposed by applying a pressure gradient  $G$  along  $y$ -direction. Director field  $\mathbf{n}$  is represented by a polar angle  $\theta$  and an azimuthal angle  $\phi$ .

In this study, we conduct all the simulation in this flat channel Fig. 3.1.

### 3.1 Results-1st section

## 3.2 Results-2nd section

### **3.3 Conclusion**

*-Your conclusion of 1st project goes here*

## 3.4 Appendix

### 3.4.1 1st part of Appendix

# Chapter 4

## 2nd Project

*-Your table goes as following example*

Table 4.1: Handedness of the periodic double-twist configuration, obtained in 21 independent simulations.

	left-handed twist in $x$ -direction	right-handed twist in $x$ -direction
left-handed twist in $z$ -direction	10	0
right-handed twist in $z$ -direction	0	11

# Chapter 5

## 3rd Project

*-The 3rd Project goes here*

# Chapter 6

## Conclusion and Future Work

*-A biref summary goes here*

### 6.1 Conculsion

#### 6.1.1 1st Project

In the Chapter. 3

#### 6.1.2 2nd Project

#### 6.1.3 3rd Project

### 6.2 Future Work and Challenges
